SKILLS

- **Languages:** Python, C, C++, Java, R
- **Frameworks:** NumPy, Pandas, Matplotlib
- **Tools/Platforms:** MySQL, Excel, Tableau, Git
- **Soft Skills:** Leadership, Adaptability, Problem Solving

PROJECTS

- **Retail Sales Insights Dashboard** November 2024
Built a comprehensive sales analytics dashboard using Tableau, leveraging data from a custom MySQL database. Designed and executed SQL queries for data extraction, performed data cleaning and transformation, and prepared datasets for visualization in Excel and Tableau. The dashboard provides real-time insights into sales trends, product performance, and customer behavior, enabling data-driven decision-making.
 - Sales Performance Analysis – Tracked revenue, profit, and sales trends over time
 - Product & Category Insights – Identified top-performing products and underperforming categories
 - Customer Segmentation – Analyzed buying patterns and customer demographics
 - Dynamic Filtering & Drill-Downs – Enabled users to interact with data for detailed insightsData Integration – Combined data from Excel and MySQL for comprehensive analysis
Tech used: MySQL, Excel, Tableau
- **Courier Management System** April 2023
Developed a console-based Courier Management System in C, allowing users to manage courier records efficiently. Implemented key functionalities such as inserting, displaying, searching, updating, deleting, and sorting records. Integrated a login system for authentication and enabled file handling for data persistence.
 - CRUD operations (Create, Read, Update, Delete) for courier records
 - Sorting records by cost for easy management
 - Secure authentication system with predefined credentials
 - Data storage and retrieval using text files**Tech used:** C, File Handling, Data Structures (Structs and Arrays)

CERTIFICATES

- Data Structures and Algorithms - Self-Paced (C++/Java) by GFG. August 2024
- Excel Skills for Business Specialization (Coursera) May 2024
- Build Apps With ChatGPT, Dall-E and GPT-4 (Coursera) April 2024
- Dynamic Programming, Greedy Algorithm (Coursera) April 2024
- Generative AI with Large Language Models (Coursera) March 2024
- Getting Started with DevOps (LinkedIn Learning) February 2023
- Certification of completion for HTML and CSS by Cipher Schools January 2023

ACHIEVEMENTS

- **Authored a Term Paper on Memory Leak Detection & Prevention** January 2024
Conducted research and authored a term paper on techniques for detecting and preventing memory leaks in software applications.
- **Idea Advanced to Nationals in Smart India Hackathon** September 2023
Participated as a part of a team in the Smart India Hackathon with an innovative idea for an interactive game designed to teach children their rights. The idea was later recognized for its impact and successfully advanced to the national level.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 5.33 Since 2022
- **Ramanuj Gupta Senior Secondary School** Silchar, Assam
Intermediate; Percentage: 89.6% 2019 - 2021
- **Silchar Collegiate School** Silchar, Assam
Matriculation; Percentage: 82.33% 2006 - 2018
